Tipping advice

At Tasik Divers the dive guides, boat captain, boat crew, office staff, tank filler, security guard, laundry staff and housekeeper are all working as a team. If you are happy with their work and want to leave some appreciation please put a tip in an envelope and leave it in the dive centre tip box. It will be shared in the middle of each month equally among all the staff.

The dive team is a group of professionals that has a great deal of experience. The dive guides want you to have the best encounters possible. They will point to critters throughout the dive; some of these are very small so take a close look if you can do so safely without damaging the reef or losing your buoyancy. Please let the guides know if you want to see something specific and they will do their best to find it for you.

The rest of the team are here to make your holiday as enjoyable as possible. The boat crew will drive you safely, bring you drinks, make snacks and generally look after you really well. The dive centre team are here to help with checking in, with any courses you want to do, with diving or equipment enquiries, shop purchases and camera courses and hire.

Thank you for reading. Once again, a very warm welcome to Tasik Divers and Tasik Ria Resort and Spa and we hope you have a fantastic, unforgettable holiday with us.
